## Turbine Purchase Agreement Articles

**Contracts** **TURB** [INDIA: Suzlon contracted for IOCL's 48.3MW Jaisalmer](#)

30 Mar 16 - *Windpower Intelligence*

**Turnkey contract awarded**

Suzlon has won a turnkey order from Indian Oil Corporation Ltd (IOCL) for a 48.3MW project in Rajasthan. Located in the districts of Jaisalmer and Jodhpur, it will comprise 23 S97 turbines which Suzlon will install and commission. It will also provide comprehensive operations and maintenance services for an initial period of 10 years. The project is scheduled for completion by March 2017.

**TURB** [BOSNIA-HERZEGOVINA: Siemens to supply 50.6MW Mesihovina](#)

21 Mar 16 - *Windpower Intelligence*

**The project will comprise 22 x 2.3MW turbines**

Bosnian utility Elektroprivreda HZHB has awarded a €72m contract to Siemens. It relates to the supply of 22 x 2.3MW turbines to the Mesihovina project. Planned for a site about 70km west of Mostar, the wind farm - Bosnia-Herzegovina's first - should be completed in 2017 and commissioned in early 2018.

**Contracts** **TURB** [UK: Vestas to supply 31MW Beck Burn](#)

18 Mar 16 - *Windpower Intelligence*

**The order is part of a new Master Supply Agreement (MSA) signed between EDF EN and Vestas**

EDF Energies Nouvelles (EDF EN) has placed an order for nine Vestas V105-3.45 MW turbines. They are destined for the 31MW Beck Burn project in Cumbria, north-west England. The order includes supply, installation and commissioning, as well as a Service and Availability Agreement (AOM 4000). Delivery is expected to begin in Q4 2016. The order is part of a new supply agreement, whereby EDF EN will purchase from Vestas at least 45% of its future onshore wind installations in Europe and a minimum of 30% of those in the United States, for deliveries in 2016 to 2019.

16 Mar 16 - *Windpower Intelligence*

**The project is located in Brandenburg**

Vestas will supply nine V112-3.45 MW turbines to repower the Odervorland wind farm in Brandenburg. The order was placed by Windpark Jacobsdorf GmbH & Co. KG and comprises supply, installation and commissioning, as well as a 20-year full-scope service agreement and a VestasOnline Business SCADA solution. Delivery and commissioning is planned to begin in Q4 2016.

The Finnish asset management company Taaleri (formerly Taaleritehdas) has called down the third - and so far the largest - project from its 216MW frame contract with Nordex. The turbine manufacturer will supply and install 13 N131/3000 turbines equipped with an anti-icing system, at the 39MW Kivivaara development in north-east Finland. Delivery is scheduled for late summer 2016, after which Nordex will provide full service for 15 years.

**NORWAY: Vestas to supply 52MW Hamnefjell**

01 Mar 16 - *Windpower Intelligence*

**The development is one of the northernmost wind projects in Europe**

Hamnefjell Vindkraft AS, a joint venture by Finnmark Kraft AS and private investment company Ardian, has placed an unconditional order with Vestas, for 15 V112-3.45 MW turbines. They are destined for the 52MW Hamnefjell project in north-east Norway, one of the northernmost wind projects in Europe. The contract comprises supply, installation, commissioning and a 15-year Active Output Management (AOM) 5000 service agreement. Delivery of the turbines is expected to begin in Q2 2017.

**URUGUAY: Vestas to supply 52.8MW Vientos de Pastoral**

01 Mar 16 - *Windpower Intelligence*

**16 V126-3.3 MW turbines destined for Cobra's project**

Vestas will supply, install and commission 16 V126-3.3 MW turbines at the 52.8MW Vientos de Pastoral project in Villa Pastora, Flores province. The project belongs to developers Bow Power (90%) - a joint venture between ACS and GIP- and Sowitec (10%). The EPC contractor is TaxWay, the local affiliate of Cobra (a subsidiary of ACS). Turbine delivery is scheduled for Q3 2016, with commissioning expected in Q1 2017. Vestas will also provide ten years of service.

**Windfarms:** Vientos de Pastoral

**DENMARK: Vestas to supply 45MW Hogager**

01 Mar 16 - *Windpower Intelligence*

**Hogager will become Denmark's third largest onshore wind farm**

Hogager Vindpark K/S has placed an order with Vestas for 21 V100-2.0 MW turbines, 17 of which will be power optimised to 2.2MW. They are destined for the 45MW Hogager project in Holstebro, western Jutland, which will become Denmark's third largest onshore wind farm. The order includes supply, installation, commissioning and a 10-year Active Output Management (AOM) 4000 service agreement. Delivery of the turbines is expected in Q3 2016, with commissioning due in Q4.
